OBJECTIVE

 I am a third-year digital engineering student at SIIT, Thammasat University, with a keen interest in web development and aspiring to become a front-end developer. I am seeking a software development internship from June to July 2024 to gain hands-on experience and be a valuable team member.

EDUCATION

Bachelor of Digital Engineering   **Expected May 2025**
Sirindhorn International Institute of Technology, Thammasat University
- **Cumulative GPA**: 3.98/4.00
- **Scholarship**: 4-year Continuing SIIT Scholarship
- **Relevant Coursework**: Object-oriented Programming, Data Structures and Algorithms, Human-computer Interface Design, Database System, Artificial Intelligence

Princess Chulabhorn Science High School, Phitsanulok   **May 2018 - Apr 2021**
- **Cumulative GPA**: 3.97/4.00

UNIVERSITY PROJECTS

Cleanmate - *for class Human-computer Interface Design*   **Mar 2023**
- Employed design thinking to develop a solution for managing cleaning tasks among roommates
- Have experience in user-centered design, problem-solving, and proficiency in UI design using Figma

GUI for Concert Booking - *for class Object-oriented Programming*   **Apr 2022**
- Applied my knowledge in OOP to design a GUI for booking concert tickets using Java as a tool
- Have gained more experience in designing and systematic coding

Income Problem of Khlong Sam Community - *for class Civic Engagement*   **May 2021**
- Collaborated with a 10-person team to help the community use digital marketing strategies to enhance their sales of local products and increase income
- Have improved my communication skills and the ability to work effectively as part of a team

ACHIEVEMENT

1st Runner-Up of Lifebrary Hackathon - *organized by 88 SANDBOX*   **Sep 2023**
- Proposed "Friend'ry" a platform that promotes collaborative learning in the library, allowing students to create or join activities. I contributed to UI design and business model development
- Participated in workshops providing insights into problem analysis, design thinking, business model canvas, ABC pitching, and startup mindset during the hackathon

SKILLS

Language: Thai (Native), English (Proficient) - TOEIC Score: 955/990 (2023)
Technical Skills: Proficient in HTML and CSS. Basic understanding of JavaScript, Python, and Java. Experienced in using React and Figma.
Soft Skills: Interpersonal communication, teamwork, time management, and organizational skills

EXTRACURRICULAR ACTIVITY

Member of SIIT Innovation Club   **Aug 2023 - Present**
- Currently working as a front-end developer on two ongoing website development projects

Vice president of SIIT house   **Aug 2022 - Aug 2023**
- Organized various activities to promote good relationships among members of the house
- Have increased skills in event organization and intergenerational coordination
